Company Recruitment Team

May 21, 2025

Dear reader of this presentation,

---

## About Me

**I am insightful, tenacious and curious. I am always interested in learning, and improving. I like to understand, and make sense of things. The more I understand something, the easier it is for me to learn new things.**

---

## Why 5CA?

**I consider that this is a good opportunity to work, due to the wide range of projects that your company has, and its size. I would like to enter a new project, grow within the company, and be useful.**

---

## Why Me?

**I am looking for a good remote job, where I can give my best, and build a good future for myself.**

Sincerely,

Alejandro Iglesias Calvo
